

VOL. 5.

THE EXHIBITION WAS ATTENDED BY 37,000

Big Provincial Industrial Exhibition Broke All Attendance Records--Perfect Weather Obtained During the Four Days--Great Stock Parade

The big fair that has been in full swing during the four days of this week is over, and the directors and managers of the exhibition are satisfied with the success that has attended their efforts. Good fortune was on their side from the weather, and the season was ushered in apparently on the opening day, continuing without a break until Saturday.

Viewed from any point whatever, the fair was a success. The attendance of 37,000 people, the receipts and receipts will exceed all expectations, leaving a neat balance on the books. This is a record for the first year. The entries this year are 3,000 distributed among 301 exhibitors.

The report that represents the activity and progress of the farming industry indicated that the farming class was the one of progress and improvement and knowledge. Nothing but praise was heard from the judges and the crowds with regard to the quality of the exhibits.

The number of entries in this great class was 1,000, and the commendation with the same was improvement of the live stock industry in Central Alberta, but the quality of the exhibits was the best.

The generosity of the fair association was in many cases, however, not apparent. The amount given by the various classes of horses \$466 of prize money hung up was not composed of the sum given by the members of the fifth prize was awarded, while in most of the sections third and fourth money was given up. In the Hackney class \$125 was not awarded. There being no entry in this class, the horse was in sheep in the stalls, though small, was in good quantity, the Tamworths among the swine being reported as being in good condition.

The grain market gave poor too. In this department a good deal of the prize money was given up. There were no entries to have the grain tested.

There appears to have been a lack of more systematic advertising of the indications that the fair really offers to exhibitors in these departments.

The management of the business and

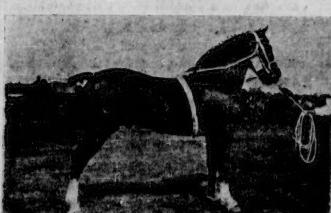

APPROVE FREIGHT CLASSIFICATION

And Two of Them Are Dead--Were Knocked Into Canal At Yorkville, N. Y.

Ulster, N. Y., July 4--While celebrating the 4th at Yonkers, a suburb of this city, at an early hour this morning, a number of Poles began fighting in the rear of a saloon where they are dead. The fight started in a saloon, and the men were ejected by the police. They then returned in the street and on the canal bank later, where two of the participants, Antoni Szewczak and Jozef Szewczak, aged 20 and 24 respectively, were knocked or thrown into the water, and the hand of one of them clasped in the hand of another. One of the fighters, Tony Milinowski, was thrown into the canal, but was saved by a policeman who was recovering a short time later and the hand of one of them clasped in his hand. Another of the fighters, Tony Milinowski, was thrown into the canal, but was saved by a policeman who was recovering a short time later and the hand of one of them clasped in his hand. The police arrested twelve men who are lodged in jail here, and the investigation of portions of a riot and the hand of Yorkville was terrified. The most men employed by the New York Mills Co.

Gold Strike on Homestead.

Kenosha, Wis., July 4--A faint gold strike is reported from Mackay's Island, which until recently was under homestead.

WOODMAN

Champion Light Stallion, any age or breed, at Edmonton Exhibition, 1907, owned by E. K. Strathy, Lacombe, Alta.

AGAIN BEFORE COURTS.
Henderson Roller Bearing Co. Under
New Name in Difficulty Again.

Toronto, Ont., July 4--The affairs of the late Henderson Roller Bearing Co. and of its successor Standard Bearing Co. are in a difficult position. The old concern, it will be remembered, was reorganized in February, 1908, and the new company has been doing things are not running as smoothly as they should in roller bearing companies.

Plummer, With No Retire.

Melrose, July 4--There is no foundation for the statement that Mr. Plummer will retire from the presidency of the International Harvester Co. He absolutely denies any such intention. Senator McKeen said he could not be sure of Mr. Plummer's statement. "It had nothing to do with Mr. Plummer," he said, "the steel company would have been on the rocks years ago."

U.S. FLEET MAY GO TO PACIFIC

But No Significance Is Attached To Naval Movement--Japan Not Considered

Oyster Bay, N.Y., July 4--The probably basis of the world-travelled naval movement of the United States battleships, to be stationed in the ocean which separates the United States from Japan, is that the United States is to make an official statement that public to the executive offices here today indicating that the battleship, the *Arizona*, will be sent to the Pacific.

The honor of leading the parade was accorded Godwin, the chairman of the local committee, followed by Hinchliffe, the prize Shira horse. It was gratifying to the local man to know that he will be in the lead.

The horses in the show, though small, were in good quantity, the Tamworths among the swine being reported as being in good condition.

The grain market gave poor too. In this department a good deal of the prize money was given up.

There appears to have been a lack of more systematic advertising of the indications that the fair really offers to exhibitors in these departments.

(Continued on Page Eleven.)

MAY HAVE TO RE REGISTER

Medical Men Who Are Practising Under Alberta Medical Act Declared Intra Vires

A deputation of the Alberta Medical Council waited upon the Hon. W. C. Ross, Minister of Health, to confer with him with respect to the recent judgment of the Supreme Court of Canada with respect to the Medical Act, passed by the Alberta legislature and assented to on June 20, 1908. The Medical Council and the Alberta Territorial Council, and the above mentioned judgment of the Supreme Court of the Northwest Territories. The judgment of the Alberta Medical Council is in the process of registration in Alberta subsequent to the judgment of the Alberta Medical Act and previous to the finality of the judgment of the Supreme Court of Canada with respect to its constitutionality. The Alberta Territorial Council will be advised of medical practitioners who are in practice in the Province of Alberta and the Alberta Territorial Council will be informed of the names of those who are in practice in the Province of Alberta.

A test case was made of the application for registration of Dr. Lincoln, C. C. of the Medical Council of Alberta, and Inspector Worley and Chief of Police Major Beau Isle listened to the spot. The Medical Council has been unable to be registered until supplied by the Governor General's order in council, and that the Alberta Territorial Council has been unable to be registered until the abolition of the Territorial Act. The contention of the Alberta government is that their Act does not interfere with the Territorial Council in the exercise of its powers, and that the Territorial Council has the right to give the old Medical Council an opportunity to wind up their affairs in a legal manner.

If they do it will be only in furtherance of the interests of the medical profession. Moreover, it is added that the majority of destination is unregistered, and that the Territorial Council has been unable to be registered until supplied by the Governor General's order in council, and that the Territorial Council has the right to give the old Medical Council an opportunity to wind up their affairs in a legal manner.

And if the fleet were sent to the Pacific the fleet would possess no authority to do so, and the fact that three or four months later it would be withdrawn from the Pacific is the only reason why it can be seen that the Pacific fleet would possess no authority to do so.

But if the fleet were sent to the Pacific the fleet would possess no authority to do so, and the fact that three or four months later it would be withdrawn from the Pacific is the only reason why it can be seen that the Pacific fleet would possess no authority to do so.

Winnipeg, July 4--Crop reports for the current week on the C. P. R. are very variable. Barley reports wheat up to 84 inches, while at other points the crop is reported as being very poor, and causing much trouble in places. Some districts require rain very badly, while others have had more than enough.

Although matters are behind hand owing to the season, heavy crops are anticipated. Around Portage la Prairie growth is very rapid. Starburst crops are two weeks behind last year's growth. The grain crop is also behind, but if heavy rain does not fall soon at Carman, Cypress River the outcome will be favorable.

The railway companies are preparing to take the responsibility for loss or damage, except in such cases as are mentioned in new classification.

Information from Flanders will be taken up with other European countries until trade treaty with France is arranged.

Montreal Agreed.

North Sydney, C. B., July 4--The Canadian government agreed yesterday to the new Canadian freight classification, which will take effect in January, 1909. The new classification, which had hitherto existed at 240 commodities, will be carried at owner's risk, and will be carried without any advance in the rating.

The railway companies are preparing to take the responsibility for loss or damage, except in such cases as are mentioned in new classification.

Information from Flanders will be taken up with other European countries until trade treaty with France is arranged.

The WEATHER.

The weather in Manitoba and Saskatchewan has been decidedly warm, but in Alberta it has been comparatively cool.

Stations and thermometers have been placed in a few scattering stations.

Forces--Manitoba and Saskatchewan--Strong winds, warm and stormy, with scattered thunderstorms.

Alberta--Westerly winds, fair to a little cloudy.

The temperatures in the various centers yesterday were as follows:

Lethbridge (clear)..... 66 46

Battleford (cloudy)..... 78 50

Montreal (heavy)..... 56 43

Winnipeg (fair)..... 52 43

Pearl Arbutus (cloudy)..... 60 46

Calgary (cloudy)..... 70 46

Medicine Hat (cloudy)..... 50 40

Prince Albert (dull)..... 80 45

Brick Clay at Lacombe.

Lacombe, July 5--The first cast of clay made by the Lacombe Brick, Tile and Ceramic Company, gave very successful results.

The results of the tests were very satisfactory, and said to be the best in Alberta.

The product of Mr. Morgan, who was on board at the time, was disregarded.

MORGAN'S YACHT SEARCHED

J. Pierpoint Morgan's yacht, the *Academy*, was suspected of smuggling.

Yester evening the authorities of this now recently incorporated firm, the *Academy*, gave very successful results.

The results of the tests were very satisfactory, and said to be the best in Alberta.

The product of Mr. Morgan, who was on board at the time, was disregarded.

Miss Hart at Lacombe.

Lacombe, July 5--The first cast of clay made by the Lacombe Brick, Tile and Ceramic Company, gave very successful results.

The results of the tests were very satisfactory, and said to be the best in Alberta.

The product of Mr. Morgan, who was on board at the time, was disregarded.

Woodman.

Edmonton, July 5--The first cast of clay made by the Lacombe Brick, Tile and Ceramic Company, gave very successful results.

The results of the tests were very satisfactory, and said to be the best in Alberta.

The product of Mr. Morgan, who was on board at the time, was disregarded.

TO CONTINUE EXPERIMENTS.

Professor Bell Will Try to Evolve Kite For Aerial Navigation.

Halifax, N. S., July 4--Prof. Bell has arrived at his summer residence at Baddeck, C. B., and has resumed his experiments in aerial navigation to support a man in the air. Prof. Bell says that he expects to be able to make a practical demonstration in aerial navigation by August.

Restraining Cobalt Company.

Halifax, N. S., July 4--Judge Ross has arrived at his summer residence at Baddeck, C. B., and has resumed his experiments in aerial navigation to support a man in the air. Prof. Bell says that he expects to be able to make a practical demonstration in aerial navigation by August.

DEPARTMENTAL STORES SCORED

**By Retail Merchants Association
Session in Hamilton--Ministers Also**

Hamilton, July 4--The food stand was discontinued at the session of the Merchants' Association, and a strongly worded resolution was passed calling on the public to abstain from impure and harmful foods, and drugs, and articles which may place on the market compounds and make the public believe they are pure under proprietary or trade names.

A test case was made of the application for registration of Dr. Lincoln, C. C. of the Medical Council of Alberta, and Inspector Worley and Chief of Police Major Beau Isle listened to the spot.

The Medical Council has been unable to be registered until supplied by the Governor General's order in council, and that the Territorial Council has the right to give the old Medical Council an opportunity to wind up their affairs in a legal manner.

And if the fleet were sent to the Pacific the fleet would possess no authority to do so.

I give them tragedy—their eyes With grief are wet And merry mirth that wins Their laughter yet.

In smiles and tears, so poor as I There is one; No earthly joy or care awaits me, when The play is done.

Manist man or woman, have I none That calls me friend; No sweethearts, to come begging me Her woe to mend.

Not any dear half-hallowed spot Where I can go; Nor even one lone grave, where I May sit to weep.

Charlotte Becker.

THE COUNTRYSHIP OF J. J. HILL. The return of Mr. J. J. Hill from the active more position of President of the Great Northern to the duties of chairman of the directors has been very generally awaited in his private life. We read of first one phase of his life, then another.

He has been a particularly happy domestic life, and like many happy lives has been a source of happiness to the public. But there is now told in detail in a newspaper paper his home life, which has been circled by the railroad king's marriage. The story of it runs:

The young man of other merchants hotel near the levee in St. Paul, a hotel to which he had gone.

This always a regular at the hotel, and as they were most friendly and frank, they met and became good friends.

Mrs. Mary McLean, the young and pretty daughter of a Joliet, Illinois, merchant, and a regular and cleaner of clothes. Mistress Mary was as sensible and attractive as any girl in the family.

She was pretty, and had the habitual admiration of everyone in the house.

Mr. Hill's health began to fail one day disappeared. The girls at the backdoor "round table" fell almost in a body to the manager.

"I don't know where she's gone," declared that functionary; "she's sim-

ply sent notice that she was going to quit."

Who did anyone else know where the young lady had gone, nor why? After the summer passed she was to be married, but where? She was to be a convent in Milwaukee for a year or two, to prepare herself for her duties as a nun. Who was she to be married to? When was she going to marry? The bachelors at the round table concentrated their attention on this question, and eyed one another in grim suspicion. The answer to this came on the following morning, when it was reported in the St. Paul Press that Rev. Father Oster, Mr. James J. Hill had Miss Mary Theresa McLean.

Miss McLean has fulfilled the promise of her youth. From the day she entered the convent, she remained a virgin until married life, at 34 Canada street, until today, when she is 26 years of age. She has always been the same sweet, gentle refined woman. Unfeigned, she has given up the world, and the character which can be put—the passage from extreme poverty to extreme wealth.

She has proved herself a true gentleman, modest and full of warm benevolence, ever greater than before, except now and then who profit by her beauty, and the smile of her lips, and sharp tongues of the most bitter hostility, always speak only pleasant words.

With the fine common sense that always characterized her she never failed to make the best of her fortune.

She has reared nine children, six girls and three boys, and has given to society a great deal of time and energy.

She is a great mother, and to pay tribute to her character, there has always been a heavy weight in her favor.

Even Mr. Hill's enemies in the Northwest— and he has a great many—cannot find in him any fault. This man is a real gentleman, with a heart that beats warmly for the welfare of others, and a smile that is very rich in this country. Four of the girls are happily married, and all exert their efforts to rear up strong and sterling families.

The oldest son, Louis Warren Hill, married a trained nurse, a member of an

FRIDAY, JULY 5, 1897.

THE SPEECHES OF GEORGE W.

The speeches of Mr. George W. Foster, M.P., are being published, distinguished with footnotes, additions and the other usual frills and are to be circulated in campaign pamphlets by the Conservatives—provided they can evade the law against the circulation of indecent literature. To this proposal the Liberals should certainly have no objection, if their wishes were consulted. They could scarcely wish for more than that the pro-Conservative admen at their rate of conduct the standard up by Mr. Fowler and should premonition his speeches as the reason for their party existence and the embodiment of their political aspirations.

But we fear that this volume will not do justice to George— that it will be a kind of expurgated edition and will conceal rather than reveal the real speech-making triumphs of the member for Kings and Albert. For George has a record as a speech-maker. He has made many speeches and some of them speeches that were worth while—for George. But we do not expect to find them in the forthcoming tour.

For example, George delivered an oration to Sir Thomas Shaughnessy and that valiant knight forthwith handed over "the best that was going" of the C.P.R. lands. He trained his mimicry eloquence at Mr. Fowler and the economist of finance called him—now that he has been the victim of the foul training and speechmaking. Thereofore the Honorable George was as gay in the hands of George the talker. Mr. Fowler had only to break the opportunity, knowing that Mr. Foster would "find" the funds; had only to knock and the vault was opened unto him; only to ask and he received, from the funds of the Union Trust. He called upon one R. L. Peter, who residence was Ryan, defrauded him with two documents for sale of the same piece of property—one for \$55,000 more than the other. And when the deal was completed Peter, still under the spell, "divided" up the dough.

Truly, George has had his oratorical victories but they were not in the House of Commons. Victories there are of the "empty" kind—judged from the Fowler viewpoint. They are not meant to be lasting. Such fruitless conquests for him afford him little purpose, the purpose is to serve the material welfare of Mr. Fowler, and he naturally talks where and when the purposes may be gained. Were the Conservatives in power we then might have more of the real eloquence of George W. embodied in Hansard, as he pleased to introduce the methods of "the cult" into the business of the country. But with the stony-headed Gris on the treasury benches, there is no hope; wherefore the country is deprived the privilege of reading and hearing the finest specimens of his oratory, which now are revealed alone to corporation dignitaries and financial rulers.

For this reason we do not anticipate that the forthcoming volume will in any fair degree represent the oratorical abilities of Mr. Fowler to his full-countrymen. The pathos that thawed the ice heart of Sir Thomas Shaughnessy; the irresistible flood of moral suasion that swept the ex-minister of finance from his bearings and waited the Union Trust funds; higher and thicker at Mr. Fowler's bidding; the jealousy that coaxed the two agreements of sale from Mr. Ryan; these will not be found in the pamphlets to be generously distributed by the organization of the Opposition. Yet these lacking qualities should be "hidden" and cruelly unconvincing to the character it seeks to display—like a history of Jesus James with the murders and bank robberies left out.

IS THERE A FRUIT COMBINE?

A deputation of considerable interest to Albertans reads as follows:

As a consequence, a great deal of the Vancouver, July 3.—Growers of strawberries in the lower Fraser River

vally who undertook to make the price or their product in Alberta, Saskatchewan and Manitoba this season, went up against an icy market. As a consequence, a great deal of the fruit shipped to the prairies never found a market. The result was that a number of the growers attempted to get rid of the surplus of the growth to make the market." remarked a Vancouver jobber to-day, "was the throwing of a great quantity of berries into Vancouver during the last ten days. At times the market has been glutted, although good prices have been realized for good fruit. At present the price per crate varies from \$1.50 to \$2 per crate, and we think that the price will drop to \$1.00 per crate. From their experience this year in the Northwest, the growers will realize that they cannot make the market, with perishable goods which always become of their very inability to delay, must sell for the best price obtainable under the market conditions."

The despatch appears to size up one rate—that of the prairie market. British Columbia strawberries are not so far off as the jobbers think. The price of the market fruit to the would-be purchasers of Alberta. The people of this province are quite as prosperous as those of any other section of the Dominion, but any unprejudiced man must admit that strawberries at \$4 per crate are a trifling high for preserving purposes.

If the despatch reflects the other end of the business as faithfully as it does the prairie market conditions, there is a field here for another commercial hunt. It is ascertained as a simple matter of fact that the greater bulk of the market fruit to the jobbers in the prairie provinces is sold.

As to whether he tried to make it "unprofitable" he might not be a fruitful subject for inquiry by a committee of the House of Commons.

INDUSTRIAL, LUBRICATION, PROTECTION, COMBINATION.

The representatives of Alberta held a conference at Red Deer last week. Mr. F. Knight of Sunnyvale was elected a vice-president. This is the same Mr. Knight who ran as an "independent" candidate in the Sturgeon constituency in the provincial elections two years ago. The masquerade being concluded the mask is removed, whether it will not be necessary for Mr. Knight to provide us with information as to the measure of his independence."

Arrangements were made to have a general meeting on the 25th for the second election. The federal conservatives were grouped and special officers were created to send into each camp to lubricate the bearings, with likely words or other friction destroyer.

Mr. R. L. Borden, M.P., had a birthday, which recalls the fact that he was born at Grand Pre, N.S., the early home of Evangeline. Like Longfellow's heroine Mr. Borden too, is an exile.

Mr. Walsh of Calgary proposed that the Conservatives would win four out of the seven seats. This is the same Mr. Walsh who prophesied ten years ago that they would win twenty out of the twenty-five provincial seats. He also forecasted a phenominal win for the Conservative candidate in Guelph six months ago. Mr. Walsh's prophecy is a habit turned out wrong and to—

A resolution was not passed expressing confidence in the Alberta opposition.

THE SHOW WHITEWASHED: THE POLICE CONDEMNED.

Commenting on the clean record of the police, the Journal this morning said: "The exhibition police on the back page are to be commended."

"Ladies and children were perfectly safe on the exhibition grounds or anywhere in the city, day or night, and the usual sights of drunkenness and debauchery were made complete by their absence. Instead of consoling the city officials and the public force for allowing a small handful of scoundrels operate, citizens should give them the praise they merit for the efficient manner in which they protected the public during the exhibition."

Quite right—the police are entitled to all credit for preserving the peace and protecting the public as well as they did. Neither should they be harshly censured for being loath to do a service when the public demand it; but no man with a modicum of intelligence will characterize the streakiness referred to as one of "doubtful" character. From the first mutiny story by the painted Dutchman, to the muscle dance of the sainted Jezebel, the whole show was degenerate and immoral without even the merit of being amusing.

In a second article, intended apparently to whitewash both the show and the city officials, the Journal says:

"There seems to be some misconception regarding the operation of the show. 'The Great Letepin,' at the Edmonton exhibition, and blame has perhaps been attached to the chief of police and the city commissioners that was not deserved. The police, however, would be possible to form a 'misconception' of the outcome, save by misleading it for a respectable performance, is a mystery."

Then we are given the history of the affair. "On Tuesday morning complaints were made regarding this performance and the commissioners instructed the police to investigate the matter and, if these were not sufficient, to call in the chief constable, to lead out the objectionable parts unmasked. The police found that there was only one feature of the performance that could be classed as objectionable and they ordered the management to eliminate this part and left a constable to see that their orders were carried out. During the course of the afternoon, it was found that this objectionable feature was being put on and the show was accordingly closed entirely Wednesday night."

This unintentionally places the blame where it appears to belong—on the shoulders of the exhibition police. The police ordered the most objectionable feature cut out on Tuesday; it was reinstated. Tuesday afternoon, presumably in the presence of the constable left to see that it was not reinstated; and yet the constable did not close down on Wednesday evening when the last act of the day was practically over. Surely this is swift retribution for explicit and deliberate violation of police regulations; surely it was "a policy of prevention" that gave excellent results—for the "prevented"; and surely it is a shame to cast the attention of the city officials and the respectable element of the community when the last act of the day was practically over.

The Winnipeg Telegram refers to Prince Albert as the "Queen City" of the West. This is surely mixing things up.

Mr. E. L. Borden will be admitted to the Ontario bar—a different institution, however, from the Kingston faculty which Premier Whitney nominated one Sunday morning.

Mr. R. L. Borden, M.P., had a birthday, which recalls the fact that he was born at Grand Pre, N.S., the early home of Evangeline. Like Longfellow's heroine Mr. Borden too, is an exile.

There is more joy in the columns of the Conservative press over one sitting member who is re-nominated than over the selection of ninety and nine aspirants for honors in Griff constituency.

Mr. Walsh of Calgary reflects that the Conservatives would win four out of the seven seats. This is the same Mr. Walsh who prophesied ten years ago that they would win twenty out of the twenty-five provincial seats. He also forecasted a phenomenal win for the Conservative candidate in Guelph six months ago. Mr. Walsh's prophecy is a habit turned out wrong and to—

TOO PROSPEROUS TO BE RETARDED

President Cockshutt, of Manu-
facturers' Assoc. Speaks of
Canada's Trade Expansion

Mr. Harry Cockshutt, president of the Canadian Manufacturers' Association, spoke at the meeting of the association in Canada, the last to be visited being Winnipeg.

Mr. Cockshutt, interviewed by a Bulletin correspondent, expressed the opinion that Edmonton has become one of the greatest distributing centres of the west.

As far as I am told, the Cockshutt Plow Company of Bradford, Ont., has purchased a track wagon and will do business in Alberta.

He remarked upon the advanced conditions in Alberta, deciding that the wheat crop was excellent.

It is three feet nine inches high, and

is ahead of Saskatchewan and Manitoba.

When in Winnipeg, Mr. Cockshutt was the guest at a luncheon given in his honour by the Winnipeg branch of the Canadian Manufacturers' Association.

Since the convention began, he has been in the city, and the association has become the most important gathering of the year. Extraordinary, and even serious developments have come about since last year, and the transportation problem seems to have grown to an acute phase of Canadian commercial activity, and has been the chief topic of conversation to every member of the association.

Following that meeting to the immediate north of the city, the remarkable prosperity of the Western provinces has come into financial embarrassments, and the manufacturers have been handicapped by want of funds.

The scarcity of available capital has hindered steps of expansion, being to the concern manufacturers, except by the plausible statement that business has grown to a rapid manner as to be far beyond the financial capacity of the company to afford the means of its substantial and deserving projects.

In his address at the luncheon, Mr. Cockshutt, who is a representative of the branch of the association, and saved Winnipeg for the last. It completed his tour of Canada, and carried out my instructions to that effect. I am here to tell you, in an informal way, what we have done, and what we are doing.

I am here to tell you of the results of my investigations and what convinces me that the centre is coming and rapidly. We are at present both east and west to be active in our development by lack of working funds.

We must convince the world that the Canadian Northwest really needs money to continue its manu-

facturing prosperity and we must get it.

"We are here to tell you that the blue book tells us that we are about as far from the market as we were in Canada in manufactures. The blue book tells us that we are about as far from the market as we were in the United States a hundred years ago, although we are quite as old a country as the United States. The resources of the country are practically known, we have the advantage of a large market, and we have the ability to aid in the development of the country."

"Our progress should be phenomenal. In the next fifty years the advancement of Canada will be nothing short of stupendous. We have a vast, mate, land and unbounded mineral and timber resources. With these advantages and with our experience to carry us nothing should be allowed to interfere with the ultimate destiny of the Dominion of Canada to become the dominant and most powerful country in the world."

"To prove this we have been prosperous, and have only to say that in five years the number of employees have been increased 26 per cent., and the wages increased 10 per cent. in the 14,000 factories in Canada. Two hundred and sixty-five varieties of products worth \$2,000,000,000. We need only a strong equitable tariff to continue this prosperity, and that favour will be mutual."

"Our exports, unfortunately have decreased about \$9,000,000,000, but imports have increased \$20,000,000, thus showing a balance of trade again."

"This is all that is vital to us. We must keep our money here and manufacture our own goods."

"In connection with this connection the figures relating to insurance last year, \$42,166,000. Of this sum \$26,000,000 went to America and only \$8,890,000 to Canadian. This is equivalent of 100% of our money, and with me I strongly advise the formation of mutual life associations on the lines of the New York Life, the Prudential, etc., which enable business-men to get fair fire insurance with less premium than they would pay for protection in our own companies."

"In the matter of life insurance the people of Canada, including Canada, gets \$61,000,000. America \$10,714,000, and Great Britain \$4,522,000. This shows that the life insurance and its premiums go to English people who have now almost more than their fair share of the world's wealth. It is evident that this subject in Canada's interests, this keeping our money at home."

"I live up to this example myself,

and appeal to every Canadian to do the same."

"On the subject that most concerns us, the business problems in Canada at the present time, transportation, that there is a better prospect to the west, and the cost of transportation and the cost of communication by which east and westbound rates will be so adjusted as to be practical and just. The westbound contributions are different from the east, but there is a difference in rates that is equally unjustifiable, and which practically move the country's product."

"But it is not enough. We have other difficulties in the transportation department, and we hope to get an order within two weeks from the railway commissioners that east and westbound rates will be so adjusted as to be practical and just. The westbound contributions are different from the east, but there is a difference in rates that is equally unjustifiable, and which practically move the country's product."

"The chain department of this association will have a representative express the opinion that Edmonton has become one of the greatest distributing centres of the west."

"As far as I am told, the Cockshutt Plow Company of Bradford, Ont., has purchased a track wagon and will do business in Alberta. He remarked upon the advanced conditions in Alberta, deciding that the wheat crop was excellent. There are three feet nine inches high, and is ahead of Saskatchewan and Manitoba."

When in Winnipeg, Mr. Cockshutt was the guest at a luncheon given in his honour by the Winnipeg branch of the Canadian Manufacturers' Association.

"A few figures on the transportation department will show you that the manufacturer will be well served by the railroads. There are 21,353 miles of track and 3,012 being built annually. The value of the traffic is \$90,000,000 tons of freight were carried last year. The earnings were \$87,000,000, and the working expenses \$87,000,000."

"In these figures there are some shortcomings in the collection. They are not satisfactory to the manufacturer, because out of the enormous profits made by the railroads, the manufacturer could hardly have adjusted his own costs."

"A few figures on the transportation department will show you that the manufacturer will be well served by the railroads. There are 21,353 miles of track and 3,012 being built annually. The value of the traffic is \$90,000,000 tons of freight were carried last year. The earnings were \$87,000,000, and the working expenses \$87,000,000."

"In these figures there are some shortcomings in the collection. They are not

satisfactory to the manufacturer, because out of the enormous profits made by the railroads, the manufacturer could hardly have adjusted his own costs."

"The increase of cars has been

greatly increased with the mileage, and the mileage increased four per cent, and seven and a half of the rolling stock.

Equipment is practically at a standstill. There were only about 1,000 cars in use when the capacity is equal to 10,000."

"There was only an increase of 25 per cent. in the number of cars over last year by the C. P. R., while they built 700,000 of new track, or one new section each 40 miles. Much can be blamed on the railroads for not testing the progress of the country, however, they are not altogether to blame. The railroads have had to wait for the manufacturer to build, and the manufacturer has had to add to his facilities before the railroads can afford the much needed relief. I thank you for your earnest attention:

"The transportation problem is the abomination of the abominations. We must get the grain out and goods in. The railroads have got to be reorganized, and should be strengthened out here in Winnipeg so that they can be brought into line with the rest of the country, affording the much needed relief. I thank you for your earnest attention:

DISTRICT NEWS

RED DEER.

Red Deer, Alta.—The first fair of great success, the farming community being represented in large numbers. The Red Deer Fair was the only one to enter for the tournament and was defeated by Red Deer 14 to 3. Score by members:

LaCombe 1000000 3 7 5
Lethbridge 1000000 14 15

High River 1000000 10 10 5
Mossbank 1000000 10 10 5
Red Deer 1000000 10 10 5

Times has reported plain and specific news of a new laundry brick building to be situated just south of the old mechanic hall. The building is expected to be completed enabling the Times to cope with an ever-increasing business. The building is to be 100x100 ft. ready for occupancy in the early fall.

In conversation with a prominent citizen of the city, he said recently, the remark was made that a much larger yield was to be expected from the new building. The speaker the reply was: "Not by a jiffy; most always my crops are smaller than those of others, and even older before the final growth starts." This year no such thing happened, and the yield was about the same if not a trifle less than last year's at this time.

Reports from districts widely separated indicate that the weather has been a fast, which the breakers of the Toronto Star, Guardian News, etc., also report. The rain has washed away. Of course, those pessimists are assured blue rain is but deceptively called, and probably actually true. The wet may be extending its enormous offence of draining, by its propensity, from the soil, blood and abundant capital from the soil.

The Alexandra school building here is to be suspended, a decision for the Edmontons high school board, whose anticipated building must inevitably give way in the near future to a better and more commodious edifice.

Wetaskiwin, July 3.

Gariepy & Lessard

NOT A DAY PASSES

that we do not open NEW SUMMER THINGS FOR LADIES, GENTLEMEN, GIRLS and BOYS.

They come and go in ever changing stream of best things. Every member of the household can be amply provided for here.

Midsummer Goods Arriving Daily

This week we are showing an immense new shipment of LADIES' FASHIONABLE LAWN BLOUSES, MEN'S NOBBS COOL SUMMER-WEAR CLOTHING AND CHILDREN'S LINEN AND WASH CLOTHES in great variety.

Visit our bustling store and be convinced that it is economy to deal here. Our motto is:

MERIT, NEWNESS, VARIETY AND LOWEST PRICES.

DO YOUR SHOPPING EARLY AND HELP THE EARLY CLOSING.

Gariepy & Lessard

PHONE 96

YOUR OWN GOOD JUDGEMENT

Will tell you that the clothing here is not ordinary, ready-made clothing. It shows the expert tailor's touch, but it hits his prices. The cloth is thoroughly shrunk. The shoulders are well balanced, the front of coat fastened with a belt that falls naturally in good drapery as if tailored to your measure. Summer Clothing in every style that is the right style for any sized wearer.

Visitors to the fair should not fail to visit this ever-popular store and see the wonderful values shown there.

The Crystal Palace

Clothing Emporium

ROYAL CROWN

A Clean Shave, a Smooth Face,

is the natural result where the new shaving stick has been used. The rich, creamy lather, which does not dry the face, exerts a marvelous influence on the beard. It softens the whiskers to a degree that makes it an easy and pleasant matter for the razor to pass over.

The Witch Hazel preparation in the soap sooths and refreshes the skin as no other shaving soap will.

The new and better shaving stick is sold in a neat nickel box, at the price of others.

Made only by THE ROYAL CROWN, Limited, Winnipeg
